CHANGELOG

Prettier Formatter for Visual Studio Code

Prettier is an opinionated code formatter. It enforces a consistent style by parsing your code and re-printing it with its own rules that take the maximum line length into account, wrapping code when necessary.

We've decided to use the Prettier extension for our coding style. Below is the difference before and after using the prettier. Note that if this syntax modification causes the problem of implementing, we've discussed not to use the certain code blocks.

Before:

```
56 //getting chatbot response find resources
57 const getResources = async (message) => {
58   console.log("message: ", message);
59   try {
60     const response = await fetch(`${process.env.REACT_APP_FLASK_URI}/chatbot/find_sim_docs`, {
